

Present the design. Define the scope.

Architectural renderings, 360-degree tours, physical scale models and AR presentations for home builders and developers.

A practical brief for choosing formats, preparing references and comparing the conditions behind each price.

Verixa Property Studio is a division of Verixa Studios. Serving clients across Canada.

Aschenkite - architectural concept visualization. Not a photograph of a completed building.

Ontario, Canada • sales@verixastudios.com • 647-375-8389

architectural.verixastudios.com • Prices updated 16 October 2026. Final project scope and terms are confirmed in the quote. All prices are CAD, before HST.

A coordinated presentation

One house design of approximately 2,000-2,500 sq ft, one exterior elevation and one interior finish scheme. Expanded scope is quoted individually.

Digital + Physical

Starting from \$3,750 CAD / package, before HST.

One house design of approximately 2,000-2,500 sq ft, one exterior elevation and one interior finish scheme. Expanded scope is quoted individually.

- Interior 360° tour
- One architectural miniature
- QR link connecting model and tour
- Builder branding
- 12 months' tour hosting

Renewal, ongoing changes and any additional hosting are agreed in the quote.

Builder Launch

Starting from \$4,950 CAD / package, before HST.

One house design of approximately 2,000-2,500 sq ft, one exterior elevation and one interior finish scheme. Expanded scope is quoted individually.

- Everything in Digital + Physical, including 12 months' tour hosting
- A dedicated property webpage
- An enquiry form
- Six premium architectural renderings selected from the approved tour
- A short digital buyer brochure

The six included images are selected from the approved tour. They are not six separately composed renderings. Separately composed stills start from \$550 CAD/view for exteriors and \$450 CAD/view for interiors, before HST, for one final image from one approved camera angle with complete plans and finish references supplied.

Video is a separate commission. Confirm duration, spaces, camera route, resolution and final format in the project quote.

Step into the design

Live the Vision

Starting from \$6,500 CAD / package, before HST.

One house design of approximately 2,000-2,500 sq ft, one exterior elevation and one interior finish scheme. Expanded scope is quoted individually.

- Everything in Builder Launch, including six premium architectural renderings selected from the approved tour
- Tabletop AR home experience
- Life-size AR at 1:1 scale
- AR-ready model preparation
- Shareable AR link and QR code
- Supported-device and placement checks

For the same approved home design. AR spaces, supported devices, placement approach and hosting terms are agreed in the quote. The six included images are selected from the approved tour. They are not six separately composed renderings. Separately composed stills start from \$550 CAD/view for exteriors and \$450 CAD/view for interiors, before HST, for one final image from one approved camera angle with complete plans and finish references supplied.

Hosting & revisions

Digital + Physical includes 12 months of tour hosting; Builder Launch and Live the Vision include that package. Renewal, changes after approval, revision allowance and any hosting beyond the included period are confirmed in the quote. Standalone tour and AR hosting terms are agreed separately.

Choose a smaller scope when an individual view or existing sales channel already meets your needs. A package starting price is not a fixed quotation for every home.

Images, tours & miniatures

Exterior architectural rendering

Starting from \$550 CAD / view, before HST.

One final image from one approved camera angle. Complete plans and finish references supplied; scope agreed before work begins.

Interior architectural rendering

Starting from \$450 CAD / view, before HST.

One final image from one approved camera angle. Complete plans and finish references supplied; scope agreed before work begins.

360° interior tour

Starting from \$2,500 CAD / home, before HST.

Connected interior viewpoints. Viewpoint count, navigation, finish scheme, revisions and standalone hosting terms are confirmed in the quote. The package hosting term does not automatically apply to this standalone service.

Architectural miniature

Starting from \$1,750 CAD / model, before HST.

Model details, scale, finish and delivery are confirmed in your project quote.

The six included images are selected from the approved tour. They are not six separately composed renderings. Separately composed stills start from \$550 CAD/view for exteriors and \$450 CAD/view for interiors, before HST, for one final image from one approved camera angle with complete plans and finish references supplied.

Tabletop and life-size

Life-size AR experience

Starting from \$2,500 CAD / home, before HST.

One approved home design and agreed exterior or interior spaces. Model preparation, supported devices and placement approach are confirmed in your quote. Life-size AR is scoped separately from the tabletop demo.

Tabletop AR experience

Starting from \$1,500 CAD / home, before HST.

One suitable existing 3D home model. Includes preparation, mobile testing, a shareable link, QR code and one revision. Included levels, supported devices and hosting terms are agreed before work begins.

AR package add-on

Fixed price: \$750 CAD / home, before HST.

For a suitable existing approved Verixa model in an existing home presentation package. Includes shareable link, QR code, mobile testing and one revision. Hosting terms are confirmed in the quote.

New model creation, substantial rebuilding and expanded scope are quoted separately. AR compatibility and tracking depend on device, browser, camera permission and environment. Presentation placement is not survey or construction set-out accuracy.

Two offers. Distinct scope.

2D marketing plan

Fixed price: \$149 CAD / plan, before HST.

One approved home design, up to 2,500 sq ft and two levels. Includes room labels, key dimensions from supplied plans, one revision round, and PDF + PNG delivery. Additional levels, site measuring and design changes are quoted separately.

3D floor plan rendering

Fixed price: \$349 CAD / plan, before HST.

Only for a property already included in an existing Verixa project. This is separate from the house packages. Views, levels and delivery format are confirmed in your quote; include your existing project reference.

Plans for marketing

Dimensions are taken from supplied plans. These services do not imply a new measured survey or construction/permit approval. Include the current drawing revision and identify any missing dimensions.

Multi-unit & condominium presentations

Custom pricing. Architectural miniatures and exterior digital presentations, scoped to your development. Suite interiors, amenities and additional project options are quoted separately.

For an existing approved design

Additional full-size miniature

Fixed price: \$450 CAD / each, before HST.

Another copy of an existing approved house model for a sales office or presentation. Scale, finish and delivery are confirmed in the quote.

Personalized keepsake miniature

Fixed price: \$179 CAD / each, before HST.

A smaller keepsake of an existing approved home design. Minimum order of 10.

Kitchen and living-room finish options

Fixed price: \$750 CAD / option set, before HST.

For the existing approved model: two kitchen/living-room finish schemes selectable inside the 360° tour, covering affected viewpoints.

Alternative layout comparison

Fixed price: \$500 CAD / comparison, before HST.

For the existing approved model: one localized alternative, such as a loft versus a fourth bedroom, with selectable 360° viewpoints of the affected area.

Webpage / application + hosting

Fixed price: \$1,100 CAD / extra, before HST.

Fixed extra: \$1,100 CAD, before HST. A separate responsive webpage or lightweight application. Functionality, hosting period and support are agreed in your quote. Builder Launch already includes a dedicated property webpage.

What to send and confirm

Drawings

Dimensioned floor plans, elevations, roof/level information and the current approved revision.

Finishes

Material references, fixture and joinery choices, colours and any decisions that still need interpretation.

Outputs

Views and camera positions, tour spaces, model scale and represented floors, AR devices and placement needs.

Commercial terms

Final formats/resolution, usage, revision allowance, project timing, delivery, packaging and hosting/renewal arrangements.

Existing projects

Project reference for the conditional \$349 CAD/plan 3D floor-plan service, before HST, and an approved model for eligible add-ons.

Send drawings by email to sales@verixastudios.com. Use the contact page to select a service or package. No turnaround or shipping promise is implied before the project quote.

Examples and their limits

Aschenkite

2,634 sq ft, two-storey, four-bedroom, three-bath concept. Exterior perspectives and a digital 1:64 architectural print preview.

Ridgefield

Documented pilot case requested by JSB Consulting. Confirmed area 2,148 sq ft. Coordinated 2D marketing floor plans, exterior imagery, a tour following the reconstructed layout, digital interior print preview and a separate AR demonstration.

Maplecrest

Approximately 2,312 sq ft. Interpreted panoramic collection, exterior imagery, print previews and a 36-second 1080p digital assembly study.

Courtyard Quarter

Original Verixa concept with exterior, residence and amenity images plus interpreted connected panoramas.

Concept renderings are not completed-building photographs. Interpreted panoramas can approximate geometry. Digital print previews and assembly films are not evidence of manufacturing. Production details and measurable accuracy require separate verification.
